

The Great Lakes Organized Labor Management Council (GLOLMC) has served Greater Lorain County and the Northeast Ohio area for 13 years. The GLOLMC promotes positive labor management relations throughout the region. We specialize in developing labor and management cooperation committees to work on a variety of mutual concerns such as safety, drug-free workplace, relationships, and teambuilding.

The GLOLMC is a non-profit organization that depends on grants from the State of Ohio Department of Development Ohio Labor Management Cooperation Program and private foundations, service fees, special event income and its annual membership campaign. Our goal is to provide service at reasonable rates enabling assistance to companies and unions that does not gouge their budgets. Through our direct services we impact the economic viability each company or organization served.

Every year our membership campaign raises \$10,000 to support a \$210,000 annual operating budget. Every campaign contribution directly supports the mission of the GLOLMC. Your membership allows discounts on services, customized training, seminars and workshops, and recognition in all publications. Each contribution helps leverage other funding resources and grow the capacity of the GLOLMC. Consider supporting the GLOLMC this year with a membership contribution.

- Blue Chip \$5,000 +**
- Gold \$1,000 +**
- Silver \$ 500 +**
- Benefactor \$ 250 +**
- Partner \$ 100 +**
- Sustaining \$ 50 +**
- Individual \$ 25 +**

With your financial support, the GLOLMC can continue to provide the assistance to labor and management to develop the kind of relationship that supports the economic viability of the area. Thank you for your consideration!
