

Supply Chain Management

Presented at Medina County Career Center
Delivered by Lorain County Community College

Coming in January

Supply Chain Management Associate Degree

- Whenever a product needs to be transported to someone who needs it, the SCM industry is involved—it is critical to Northeast Ohio's manufacturing, healthcare, retail, biomedical, hospitality, and governmental operations sectors.
- With wages 15-23 percent higher than the average, the industry needs educated and trained employees.
- Prepare for entry-level management positions in a variety of fields: distribution; import/export; materials control; transportation (ground, air, water, rail); sales; supply.

TAKE ACTION! Affordable College Credit Courses Available.

To learn more, attend an Information Session at the Medina County Career Center on:
Wednesday, December 14 • 6-7 p.m.

To RSVP or to request additional information session dates, contact **Sandy Frommeyer at 330-725-8461 ext. 351 or 1-866-896-6222 or sfrommeyer@mcjvs.edu**
