Cleveland Clinic is a nonprofit multispecialty academic medical center that integrates clinical and hospital care with research and education. Located in Cleveland, Ohio, it was founded in 1921 by four renowned physicians with a vision of providing outstanding patient care based upon the principles of cooperation, compassion and innovation. Cleveland Clinic has pioneered many medical breakthroughs, including coronary artery bypass surgery and the first face transplant in the United States. U.S. News & World Report consistently names Cleveland Clinic as one of the nation’s best hospitals in its annual America’s Best Hospitals survey. More than 3,000 full-time salaried physicians and researchers and 12,000 nurses represent 120 medical specialties and subspecialties. The Cleveland Clinic health system includes a main campus near downtown Cleveland, eight community hospitals, more than 75 Northern Ohio outpatient locations, including 16 full-service Family Health Centers, Cleveland Clinic Florida, the Lou Ruvo Center for Brain Health in Las Vegas, Cleveland Clinic Canada, and Cleveland Clinic Abu Dhabi. Cleveland Clinic’s fast-paced, technologically advanced environment allows nurses to learn, grow and remain professionally challenged while shaping their careers according to their own interests. Elyria Foundry was founded in 1905. The foundry began producing castings for the machine tool and gas engine industry and saw growth and expansion during both world wars and continued on for many years. A change in ownership would reestablish and revitalize Elyria Foundry as a viable business by changes in philosophy, reinvesting in people, equipment and the environment.

Today Elyria Foundry has refined the standard for foundries and competitors alike. Elyria focuses our business on complex, difficult and high integrity castings providing gray and ductile iron parts from 50 lbs up to 10,000 lbs in a variety of volumes. Various molding capabilities allow Elyria Foundry to provide the most cost effective castings with industry leading quality. Elyria Foundry has the flexibility to provide highly engineered, complex castings made right the first time and delivered on time.

First Federal Savings of Lorain has been committed to providing the best possible service to the communities we've served since 1921. The mission of our institution was and continues to be, providing home ownership and a safe harbor for our customers' life savings.

At First Federal Savings of Lorain the focus is on reinvesting in the community, especially in residential properties. The largest percentage of our institution's mortgage loan portfolio is in residential property loans which we retain the servicing on. First Federal Savings of Lorain is also the only bank that offers construction loans to individuals acting as their own general contractor.

The loan process can sometimes be complex and confusing. We feel it's important to take all the time an individual needs in explaining that process. We want our customers to be well informed when making one of the most important financial decisions in their lives.

Alex de la Pena  
Brenda Tobicash

Established in February of 1992, Hasting Water Works was founded on the simple premise of honest, sincere and dedicated passion to deliver the best possible services. It wasn’t about the money - it was about something much bigger. To be part of a successful organization that is always striving to learn, improve and enhance our client’s experiences. Each member of our growing team of dedicated professionals has that same desire to do the very best, and to provide safety and peace of mind to those we serve.

Our humble beginnings took place on the gravel floor basement of a rented home. Beginning with one pickup truck, one pump and one part-time seasonal college kid, we have grown to become Ohio’s largest swimming pool service, maintenance, management and lifeguard staffing company. It didn’t happen overnight. It took years of honest, dedicated, hard work. Our success stems from remaining open to new ideas, challenging what and how we do things, seeking out new technologies, new methods, new products and remaining flexible to meet the ever changing demands of our clients.

At Hastings Water Works, we believe that what truly sets us apart is the incredible strengths of our team members. We build upon the unique talents and passions of each team member by encouraging professional growth.

We bring our commitment, our selflessness and drive to our clients. We look forward to working with you to demonstrate our passion in a way that will help you understand what we mean when we describe what it is that we really offer: safety and peace of mind.

Amy McKinley

MCPC Imaging and Printing, LLC (MIP) was created in 2012 and was formerly known as RS Business Machines, Inc., which was founded in 1976. Now in its second generation of ownership, the company has grown from a local service provider of copiers and printers to a national managed print solutions provider.

Led by President Gina Vincent, the company’s leadership team has an average of 30 years of industry experience and knowledge in the managed print environment. MIP partners with industry leaders such as HP, Canon, Konica Minolta, Lexmark, and many others to provide the best in class products and solutions on which our customers rely.

Today, MCPC Imaging and Printing specializes in Managed Print Services enhanced with software solutions to maximize security and efficiency. Optimizing our client’s print environment with the right service model, technology, and implementation methodology, we are able to deliver substantial long term savings. The net result is the delivery of a managed print model with key metrics, service level agreements, and ongoing monitoring of print activity to proactively manage cost. All of this is driven by developing a deep understanding of the client’s business requirements and aligning with key business drivers that ultimately lead to an extremely efficient enterprise print strategy. This strategy is continuously monitored and changed as business needs change over time.

Jeremy Kennison

It was 1974 when our country had its first gas crisis. The price of gasoline was skyrocketing, gas stations were closing nationwide, and carmakers began exploring how to develop cars that got better mileage. But for George “Jig” Warren III and Gary “Moe” Meszaros, it wasn’t about better mileage or that matter even obeying the new 55 M.P.H speed limit. It was about finding a home to preserve the culture of those old gas stations and high-powered muscle cars. So was born Quaker Steak & Lube®, a “Cook Your Own Steak” restaurant that gave old muscle cars a permanent home,

Which included a 1936 Chevrolet, frozen in time on the original hydraulic grease rack. It is from these beginnings that the Quaker Steak & Lube® family of restaurants began. Today, “The Lube®” serves over 80 million wings annually, has bottled sauces for retail sale, has won the title of “Best Wings USA,” and has hundreds of local, national, and international awards for their sauce recipes. Over 60 locations throughout the United States and Canada, “The Lube®” is still rescuing muscle cars, vintage cars, trucks and a vast selection of custom and antique motorcycles, giving them good homes hanging from the walls and ceilings in each restaurant.

The MetroHealth System is an essential health system committed to providing health care to everyone in Cuyahoga County, Ohio, and improving the health of the community overall. Its 6,700 employees deliver care to everyone at its main campus, just west of downtown Cleveland, and at more than 20 other MetroHealth locations. It also provides health care at more than 20 additional sites in Cuyahoga County through community partnerships such as the School Health Program.

MetroHealth is home to Cuyahoga County’s only verified Level I Adult Trauma Center and Level II Pediatric Trauma Center, and it is the only adult and pediatric burn center in the state of Ohio verified by the American Burn Association and the Committee on Trauma of the American College of Surgeons. In the past year, MetroHealth provided more than one million patient visits in its hospital and health centers. MetroHealth also is an academic medical center committed to teaching and research; each of its active physicians holds a faculty appointment at Case Western Reserve University School of Medicine. MetroHealth has earned Magnet status, which places it in the top 6 percent of all hospitals nationwide for nursing excellence.

The MetroHealth System makes every effort to ensure that in every phase of the recruitment and selection process, equal employment is provided to all individuals, regardless of race, color, gender, sex, age, creed, disability, national origin or citizenship, veteran’s status, sexual orientation, gender identity, religious affiliation, socio-economic standing, pregnancy and/or genetic information, and any other protected characteristic.

MetroHealth’s mission is, “Leading the way to a healthier you and a healthier community through service, teaching, discovery and teamwork.”
