

Changing College Network Password

(The screen captures are from Windows 10, but the process is the same)

- 1) Log onto your Windows work computer (these procedures will not work on a Mac).
- 2) Press the Alt , Ctrl , and Delete keys on your keyboard at the same time.
- 3) Select the option to change password.

- 4) Type in your network username
- 5) In the old password box, type in your current network password.
- 6) In the new password box, type in the new password you want.
- 7) In the confirm password box, type in the new password you want (to verify you typed it the same way twice).
