

Master of Health and Human Services Transfer Pathway

(Course selection/order may vary. All pathways are subject to change. Please contact an advisor/counselor.)

The online Master of Health and Human Services program consists of 34-37 semester hours of graduate coursework. There are two areas of coursework in the MHHS: an academic core and a specialty track. A thesis or non-thesis option is available with each track.

The academic core consists of 24 semester hours distributed among the following course areas: tools (6 semester hours), management skills (6 semester hours), and issues in health and human services (12 semester hours). A total of 13-16 semester hours of coursework is devoted to a specialty track in health promotion, health care administration, and health informatics. Each track offers a thesis or non-thesis option. The non-thesis option in the health promotion, health care administration, and health informatics track requires the student to complete an internship, which is called a practicum. The thesis must be submitted according to the general requirements established by the [School of Graduate Studies and Research](#). The student is required to defend the thesis in an oral presentation before a committee of graduate faculty from a minimum of two academic disciplines. Students selecting the non-thesis option must successfully complete a comprehensive examination and additional courses for graduation.

Academic Core

Tool Courses (6 Semester Hours)

Course	Credits
CJFS 6942: Research and Statistics in Health & Human Services	3
HHS 6930: Health Informatics	3

Management Skills and Courses (6 semester hours)

Course	Credits
MGT 6930: Managing and Leading in Organizations AND MGT 6941 Managing Organizational Talent (MGT 6930 & MGT 6941 must be taken in the same semester)	2
MGT 6947: Managing Information & Technology	2
HHS 6971: Optimizing Performance & Commitment	3
HHS 6955: The Impact of Health Informatics on the Quality of Health Care Service	3

Issues in Health and Human Services (12 semester hours)

Course	Credits
HHS 6949: Community Health Practice	3
HHS 6953: Health Behavior	3

HHS 6958: Health Services Issues	3
HHS 6962: Health Care Reform	3

Tracks

Select One of the following

Health Promotion (13-15 Semester Hours)

Course	Credits
HHS 6959: Foundations & Planning	3
HHS 6960: Implementation & Evaluation	3
HHS 6980: Seminar	3
HHS 6981: Grant Writing	3
HHS 6990: Practicum or HHS 6999: Thesis	1-2 3

Health Care Administration (11-13 Semester Hours)

Course	Credits
HHS 6918 Programming Planning & Evaluation	3
HHS 6922: Planning & Fiscal Management	4
HHS 6980: Seminar	3
HHS 6990: Practicum or HHS 6999: Thesis	1-2 3

Health Informatics (14-16 Semester Hours)

Course	Credits
HHS 6935: Clinical Informatics	3
HHS 6945: Health Care Systems Analysis	3
HHS 6922: Planning & Fiscal Management	4

HHS 6955: The Impact of Health Informatics on the Quality of Health Care Service	3
HHS 6990: Practicum or HHS 6999: Thesis	1-2 3
