ABOUT THE PROGRAM

Tiffin University’s Master of Education (MEd) in instructional design is specifically tailored to develop graduates who go on to design and build learning experiences that deliver the greatest amount of value to the broadest populations.

A GROWING FIELD

Instructional design is the practice of creating efficient and effective learning experiences that meet the needs of today’s learners in K-12, higher education and the corporate world. As part of our professional program, you will gain career-ready skills related to emerging pedagogies, accessibility and universal design principles. This will prepare you to design, develop and support educational materials as well as user experiences that benefit all students, regardless of economic, social, physical, cognitive or emotional challenges.

HANDS-ON LEARNING

You will also engage in hands-on projects throughout the program, working side by side with instructional designers from Tiffin University’s Center for Online and Extended Learning. Equipped with these real-world experiences, you will find yourself at a competitive advantage in the job market.

HIGH-DEMAND GRADUATES

Instructional designers have played a key role in the evolution of teaching and learning over the past several years and recently, demand for them has exploded. According to Inside Higher Ed, the field grew by more than 20 percent between 2004 and 2020, with no indication that demand is slowing. If you are creative, curious and want to make a difference in the future of education, instructional design might be the career for you.

AFFORDABLE AND FAST

Tiffin University’s Master of Education in instructional design prepares graduates to enter this exciting field faster and at a significantly lower cost than similar programs, meaning graduates can quickly realize their return on investment. Put simply, our instructional design program is one of the most affordable in the nation.

FLEXIBLE

Courses are fully online and offered in seven-week terms beginning in January, March, May, July, August and October.

THE EMPLOYMENT OUTLOOK FOR INSTRUCTIONAL DESIGNERS IS STRONG, WITH A 10 PERCENT GROWTH RATE EXPECTED FROM 2020 TO 2030 – HIGHER THAN THE AVERAGE FOR ALL OTHER CAREER FIELDS.
